- x Is there an understanding that using Canvas is just the data collection piece? Some areas require additional information to ensure complete understanding.
- x Counseling and Student Services are working in their area to better implement the use of Canvas for collecting outcomes data.
- x Now that the college has started collecting the data in Canvas, we can start rolling out Assessment V2.

- The updated Student Services assessment approach is a bit uncomfortable because it is a different process

- Suggestion to remind the college that assessment is not optional. Failure to do so is out of compliance with institutional expectations and accreditation standards.
- Request for a blanket statement. Co-chairs will develop a blanket statement.

    Suggestion to make a request to Program Review to consider returning any program reviews that the assessment section was left blank to the authors or not accepting. Co-chairs will make a request to the Program Review Committee.
- Suggestion to include a link to the available Canvas Outcomes resources on the assessment committee webpage.
- There is still a bit of confusion around how to actually complete the observation even if data was collected and in the Canvas dashboard.
- Suggestion to reach out individually to areas that left it blank and offer support.
- Homework-committee members please discuss with departments
