**C. New Stand Alone Courses:**

Rationale: This course will prepare students for entry into College Algebra, Survey of Math, Business Calculus or Statistics. These are for a non-STEM pathway. Stats and Liberal (SL) arts pathway.

1. MAT-35SL 35SL Intermediate Algebra for Liberal Arts N - MSC: R. Beck/ T. Friedrich Finnern **\*\*VOTE POSTPONED\*\***
2. MAT-52SL 52SL Support Course for Intermediate Algebra N - MSC: R. Beck/ T. Friedrich Finnern **\*\*VOTE POSTPONED\*\***
3. BUS-10H Intro to Business Honors MNR - MSC: R. Beck/ T. Friedrich Finnern **\*\*VOTE POSTPONED\*\*** There are issues with the course content. Looks like they took the title of the book chapters as its outline and copied BUS-10 COR outline. Language needs to be reworked in the course content. Needs more information for the honors section to enhance it. Brian Johnson will ask them to look at their CID descriptors for BUS-10.

**D. Course Inclusions: None.**

**E. Distance Education:**

1. GAM-80DE Digital Drawing for Game Art N - MSC: T. Friedrich Finnern / Q. Bemiller. **\*\*APPROVED\*\*** The committee needs to be properly trained on what to look for. It was discussed at a prior committee meeting that we asked the DE committee would provide this committee some specific language that is allowable for instructor-initiated content. We need to know the best practices and asked Mr. Brian Johnson to obtain this from the DE committee. Instructor initiated contact needs to be included in this COR to be content specific.

~~**F. Minor Course Modifications:**~~

L. Discussion items:

1. 2016/2017 Catalog addendum: A draft addendum was sent out four weeks ago; however, it was decided that we would not have an addendum for the 2016/2017 college catalog because it was so late and would not come out until the end of the semester. So all the items that would have been added to that addendum are now going to be incorporated in the 2017/2018 course catalog. Brian will look into who Heather Enberg answers to for the college course catalog and why this section was delayed for so long. The district Tech review committee agreed that the addendum for the 2016/2017 year would not be made since it is so late in the academic year. The committee feels that there should be an addendum (even if it is late) because it can affect students in that started in the fall their graduation cycle for the general

if there are options for the students to allow them to graduate. If we delay this, it can affect the students. Brian will look into this more.

## **Statement of Purpose**

The curriculum committee, a sub-committee of the academic senate, has two primary purposes: to review and approve new curriculum including new courses, course modifications, new programs and program modifications, and to review and approve the curriculum approval process. The college curriculum committee is the sole approving body for Norco College only curriculum. For district shared curriculum it has one vote in the district curriculum committee. The curriculum committee is also responsible for keeping abreast with state mandated curriculum changes and reporting those changes to faculty. Committee members report on curriculum at their department meetings and solicit suggestions and recommendations when needed.
