

**NORCO COLLEGE
CURRICULUM COMMITTEE MINUTES**

C. Discussion items:

1. Work Experience 200 courses. Previously, 200 courses (44 of them) were created for all CTE courses, but now we need to decide which ones to keep and which ones to get rid of; email went out to department chairs to review the list and advise; need to make sure that courses are not included in programs even if they are not currently offered; Curriculum Committee members were asked to take the list back to the department to review and let Brian Johnson or Tech Review know what to keep and what to delete; only applicable to CTE disciplines; note that some students are re-enrolled in specific 200 courses related to their program of student, but that course would not reflect enrollment since this is done on the back end; this is a district wide list, so some courses may not apply to Norco College; district discipline approval is not needed as there are separate catalogs; would need to update the work experience handbook to reflect changes if courses are removed.
