- **Spring Survey of Effectiveness:** Bernice reviewed the survey results with committee. Spoke about a possible two-year rotation of events. Araceli mentioned ensuring more student representation for better feedback.
- **Strategic Planning Structure:** Dr. Ocegueda mentioned that the Student Equity Plan will not be overseen by this committee. The college will have a revised Strategic Planning & Governance Manual, this is a good time for committees to look at their mission, principles, and chart. Dr. Fleming mentioned that the hope behind the manual is to clarify roles and to ensure clear governance structure that aligns with the Education Master Plan. Draft of plan is visible now and feedback is available through October for revisions. Final draft will be sent for approval in December 2020. A charter will be filled out for each committee to help clarify the purpose and roles/expectations. Manual will have EMP objectives that are assigned to committees/councils to take charge in completing the work. Dr. Ferrer mentioned that Guided Principles and Charge may be confusing, recommends to break the two up.
- Bernice will send a calendar invite to those who wish to participate in filling out a draft of the charter. Patricia and Araceli volunteered along with tri-chairs.
- **LGBTQ+ Advocates Committee:**
 - Brady shared new logo and mission statement. This committee can collaborate with DE&I and Unity Zone. Students will also be a part of this committee, meetings will begin in Fall.
