

Program Review - Overall Report

Data Review

2021 - 2024

Overall Trends

What overall trends do you see in success, retention, program of study, educational planning, and awards over the past 3 or more years?

The Construction Technology Program has been fairly stable over the past several decades.

A review of the past three years show the Success for 2017 - 2020 for the Spring Semesters to be 86%, 89.5%, and 67.4%. The final result was due to the Covid-19 pandemic. The college average for those same three years was 69.5%, 71%, and 69.3%. I believe the major drop in the Construction was that the makeup of students is mostly working adults.
