

## 2021 - 2024

---

### Overall Trends

---

What overall trends do you see in success, retention, program of study, educational planning, and awards over the past 3 or more years?

Retention rates have fluctuated between 79.1% and 87.2%. The low of 79.1% was for the 2019-20 academic year, which includes spring 2020 semester the pandemic hit. If we leave spring 2020 out of the analysis the retention rate would have fluctuated between 82.3% and 87.2%. Therefore, the retention rates have stayed the same with some fluctuation.

The success rate fluctuated between 63.9 and 76.1%. Once again, the low of 63.9% corresponds with 2019-2020 when the pandemic hit and we were forced to go online immediately. The success rates have overall stayed the same with some fluctuation.

Over the last three years, students declaring an economics as their program of study fluctuated between 4 and 11. None of them completed a credit education plan during a term.

### Disaggregated Student Subgroups

---

Look at the disaggregated student subgroups in success, retention, program of study, educational planning, and awards for your area. Are there any equity gaps that you will address in the next 3 years?

When I disaggregated the data across ethnicity and gender, I noticed that there was fluctuation among all groups.

If there are any concerning trends over the past 3 or more years, or if equity gaps exist, what is your action plan to address them?

Every time I do program review there is always some fluctuation in success and retention rates. There is always one year, that has lower noticeably lower than other years.

Is there a resource request associated with this Data Review? (If yes, please complete a Resource Request, which you can access from the main menu to the left)

No

## Program Review Part 2

2021 - 2024

---

### Curriculum

---

Are all your courses current (within four years)?

No

What percentage of your courses are out of date?

10% or less

If you have courses that are not current, are they in the curriculum process?

Yes

For out of date courses that are not already in progress of updating, what is your plan?

I will work with the discipline to make sure that ECO-8DE will be current. The ECG8 class is current but the DE proposal needs updating. curr
