Program Trends and Updates

2014 - 2017

Program Update Section

Has your unit shifted departments in the PAST 4 years?: No

Do you anticipate your unit will shift departments in the NEXT 4 years?: No

New certificates programs created by your unit in the PAST 4 years?: Yes. We launched an ADT since our last comprehensive Program Review

New certificate programs anticipated by your unit in the NEXT 4 years?: No

Substantial modifications made to certificates/degrees in the PAST 4 years.: No. N/A

Substantial modifications anticipated to certificates/degrees in the NEXT 4 years.: No

Activities in other units that impacted your unit in the PAST 4 years.: With the inclusion of Math12 in most of the Social Science ADT's, it creates a bottleneck that keeps our Anthropology majors waiting for open sections

Activities in other units that impacted your unit in the NEXT 4 years.: Unless we offer more Math 12, we will continue to see this issue.

Previous Program Review Resource Requests

Resource Requests Received: Anthropology received a new faculty member as a result of consistent program review requests.

How did the resources received impact student learning?: So far, although it is early yet as we only received the faculty member last Fall, we know that Goal 2, 1&2 are being met

(1. Increase student engagement faculty and student interaction, active learning, student effort, support for learners 2. Increase frequency of student participation in co-curricular activities.) as the students have better access to faculty and the new Faculty member has taken over the anthropology club. A new faculty member also helps with Goal 5: 2&3 Increase the percentage of student learning and service area outcomes assessments that utilize authentic methods and Increase the percentage of programs that conduct program level outcomes assessment that closes the loop.

Anthropology also received three fossil hominid models through program review. We saw a 5% increase in student learning in the section on fossil hominids. It was particularly important for the tactile/kinetic learners which is where we think that jump

came from. Those additions were also vitally important for the creation of the new Anthropology lab course which will be offered in the next coming cycle.

If you requested resources but did not receive them, how did that impact student learning?: N/A

Program Data Highlights Section

COR Review: Our COR's are up to date, with equal participation across the district.

Program Metric Highlights: Retention is up.

Success is strong and steady.

Efficiency could be improved.

Assessment Report Highlights: Several things were changed in Anth 2 including changing the text, and this last year, removing the clickers. More discussion was added and the reflective component has changed. This change was as a result of recognizing that many of the learning gains in the classroom were short term and did not result in overall learning gains. Also in Anth 2, in the last four years, we standardized the delivery of instructions across learning platforms to ensure equity between online and face to face students. We found that having video lectures that were filmed in an actual classroom as opposed to a studio or a narrated powerpoint had a positive impact on the student. They need the life that a professor brings to a real classroom and the impression that they are among their peers instead of learning by themselves.

In Anth 1, we updated the material and changed the learning style to include more hands on material. We had hands on activities in the past but they needed updating.

In Anth 7, we added more material on Islam, as the instructor herself received more instruction on the subject. It has resulted in more lively discussion than have been seen in several years.

In Anth 8, we hired a specialist in Linguistics which has resulted in learning gains and better student evaluations.

Program Goal: Anthropology Instructor

Hire a new full time Faculty Member

Goal Status: Completed

Goal Year(s): 2018 - 2021

Start Date: 02/12/2018

Completion Date: 06/06/2018

Program Review - Instructional: Anthropology

How do your goals support the Educational Master Plan?: 1:1 This will improve transfer preparedness as the CSU and UC system want the lab to be attached to this course. If they transfer without it, they are required to do the lab remedially.
3:5 Currently the only other class with lab that fills the same requirement is Geography and it puts too much pressure and requires more classes than we offer, thereby impacting the students negatively

This Program Goal Supports the selected EMP Goal(s) and Objective(s): Goal 1 Objective 1: Improve transfer preparedness (completes 60 transferable units with a 2.0 GPA or higher).

Activities

Program Goal: Begin Offering Anth 2H

Begin offering Anth2H It is in our catalog but has not yet been offered.

Goal Year(s): 2018 - 2021

Start Date: 08/27/2018

Completion g the students negatively

How do your goals support the Educational Master Plan?: The honors program gives those students an advantage in transfer

This Program Goal Supports the selected EMP Goal(s) and Objective(s): Goal 1 Objective 1: Improve transfer preparedness (completes 60 transferable units with a 2.0 GPA or higher).
