3. **<u>If this is a follow-up (closing the loop)</u>**, did the changes that were made to the course result in improvement of student learning from the first assessment? If so, how? If not, why did improvement not occur? What advice would you offer to the next faculty member(s) who teaches the course, based on data and experience teaching the course?

   This was an initial assessment of two SLO's.

4. What suggestions, if any, do you have for modifying the course outline of record and/or the SLOs for the course?

   The course outline of records and the SLO's are appropriate and do not need to be modified.
