2	At Chaffey college, each classroom has a phone, and faculty can call IT from the classroom, and they come to your class or talk you through the problem.	5/24/2018 12:33 PM
3	I think I used it once, and the problem was fixed, so I don't really have an opinion about needs.	5/15/2018 5:29 PM
4	Norco College needs a more responsive technical support team	5/15/2018 3:07 PM
5	Nothing really, the instructional media staff provides great service!	5/15/2018 9:24 AM

7	Norco college based Information Services not district	4/23/2018 3:40 PM
8	Both sound like good ways to help the situation. Also--I eventually figured it out--it would be helpful to inform part-time faculty where to go/how to get help when the systems are down in the classrooms. Many of the call numbers on the podiums are illegible and it stresses email over calling.	4/23/2018 11:59 AM

2	Don't waste any money on smart boards-- at the colleges that have them, none of the professors use them or like them. A complete waste.	5/24/2018 12:34 PM
3	Norco College needs a technical support team that responds and answers to Norco College not district	5/15/2018 3:09 PM
4	The desktop computers seem to be good for staff, I would like to see the laptop computers for the students upgraded which reside on carts , With access to the Internet.	5/15/2018 2:47 PM
5	The people who work at our help desk are great. But there is not enough help and they have to wear many hats and can not always reply very quickly. This is not their fault and I really hope we add another IT specialist.	5/15/2018 11:37 AM

12	Norco College pretty much does a fine job of attending to my technological needs in the classroom and with work outside the classroom, as well.	3/28/2018 7:40 PM
13	The projectors have terrible color display. I teach art, and show students images of artist's work relating to their projects on a daily basis. The art room projector casts a shade of green over everything, and does not display things bright enough to see all the detail of the image. I think it may be out of focus too.	3/28/2018 5:22 PM
14	Anything that can be done to make the teacher computer stations more user friendly is greatly appreciated. Many are cluttered or oddly positioned making it difficulty to lecture while trying to use the technology.	3/28/2018 3:30 PM
15	Computers AND audio/visual equipment are in need of updates in several classrooms. Here are a few that come to mind: ATEC 119: The sound comes from tiny desktop speakers for a large room of nearly 50 people. The screen is also a bit small for this size room. STEM 125: It has been mentioned on my IOI that this room has a screen that is too small, and the room has a significant echo. STEM 201: The computer is very slow and cannot share to the screens when using Amazon video. WEQ: Slow computers in multiple rooms In general, computers and the internet are very slow in nearly every classroom. I support technology upgrades!!	3/28/2018 2:18 PM
