

# GUIDING PRINCIPLES FOR ENROLLMENT MANAGEMENT

2013

1. Course offerings should maintain pipeline courses for our students in order to eliminate bottlenecks.

A. Since CTE has a well established pipeline of course offerings; the percentage of CTE FTES will remain the same, 18.20%

B. In an effort to support our students in need of basic skills, the percentage of basic skills and non transferable/nonbasic skills FTES will remain the same 20%

C. Priority for course offerings shall be given to courses that advance students academic progress in AA T/AST patterns.

, the options for

meet degree/transfer goals.

tion (weight) will be given to courses satisfying more than requirement and courses  
option or near single option requirement satisfiers based on the Category Weight Score.

disparity between the ISPC recommended distribution and the historical distribution, care  
exercised by those creating the schedule. It is recognized that it may take time to move
